

Asher Closed Nightstand

1116.00 €

Asher pieces with a Honey finish are constructed from white oak wood with oak veneers; Liath Smoke, Ebony, and Mocha finished pieces are constructed from Finnish pine with oak veneers.

Craftsman-built pieces feature reinforced mortise-and-tenon joinery for added strength and stability and are complemented by stone tops.

Natural stone surfaces feature unique variations in color and pattern. Natural mineral deposits, swirling, joint lines, veining, or other feature add character to each piece without affecting quality or performance.

Wood surfaces are hand-stained with a striking finish and protective lacquer for subtle sheen.

Zinc-alloy hardware features a brass finish.

Levelers on the bottom of each leg ensure each piece sits evenly on uneven floors.

Keep essentials close with ample storage in two spacious drawers.

Drawers sit atop under-mounted glides.
