

Valletta Leather Sofa

2775.00 €

Craftsman-built frames are constructed using solid, reinforced hardwood and recessed iron legs, providing lasting strength and stability.

Our aniline-dyed leathers are hand-finished to accentuate their natural color and texture, while preserving the natural features that make each piece unique.

Frame support systems feature no-sag springs made from recycled steel.

Seat cushions contain dense foam made from partially plant-based material, padded with feathers.

Seat cushions also contain flexible, interconnected coils made from recycled steel.

Backrests and arms are filled with a supportive blend of foam and poly fibers and back frame system is sustained by flexible elastic webbing.

The Valletta Collection is available in multiple pieces and customizable fabrics and leathers. Call, email, or live chat with our Design Team to create your own Valletta.
