

# Edgewater Outdoor Dining Table in White Faux Marble

1057.50 €

White faux marble tabletops are crafted from glass fiber-reinforced concrete—made by layering high-strength glass fibers and cement to create a lightweight yet exceptionally durable, weather-resistant composite.

Faux marble surfaces are hand-finished using a water transfer technique, resulting in tabletops that resemble natural marble with unique grey veining.

Grey concrete composite table bases are reinforced with metal frames for added stability and durability. Finished surfaces are polished, sealed, and coated with a clear polyurethane topcoat for added protection against scratching and staining.

Due to the inherent variety found in our Edgewater Table surfaces, no two pieces will appear exactly alike. Variations in color and texture make each piece truly one-of-a-kind.

Inherent variations along with natural imperfections—like surface cracks from finishing or non-structural hairline cracks due to age and exposure—will add character to your piece without affecting its integrity, quality, or performance.

Protect your outdoor furnishings with resilient Sur Last® covers—specifically tailored to fit Siena living outdoor collections. Speak to a design consultant for details.
