

# Sedona Outdoor End Table

240.00 €

Crafted from layers of high-strength glass fibers, sand, and cement to create a lightweight yet exceptionally durable, weather-resistant composite.

Finished pieces are colored, sealed, sanded, and coated with a polyurethane topcoat for added protection against scratching and staining.

Inherent variations in shading and color along with natural imperfections like surface cracks from finishing or non-structural hairline cracks due to age and exposure will add character to your piece without affecting its integrity, quality, or performance.

Protect your outdoor furnishings with resilient Sur Last® covers specifically tailored to fit Siena living outdoor collections. Speak to a design consultant for details.
