

Bleached Tree Trunk Concrete Coffee Table

1402.50 €

Bring the forest indoors. This coffee table is cast from a real tree trunk in ultra-durable mineral concrete, then hand-bleached for a sun-kissed coastal vibe. No two tables match: every whorl and crack is captured, polished glass-smooth, and sealed for life-proof shine. Expect a one-of-a-kind sculptural centerpiece that sparks conversation and survives red wine. Ready to ship; no assembly required. Just unbox and level-up your living room.
