

Siena Teak Outdoor Dining Table

2107.50 €

Meet the heart of your outdoor dining experience. Our Siena table is crafted from sustainably harvested teak, a hardwood celebrated for its incredible natural durability and timeless beauty. Each table is finished by hand with a wire brush to create a beautifully textured, subtly distressed surface. Over time, the finish will gracefully fade to reveal teak's signature silvery-grey patina, ensuring your table only grows more character with every season. Naturally resistant to moisture, insects, and rot, this table is built to withstand the elements and become a lasting centerpiece for countless gatherings.
