

Wilder Upholstered Bed

2362.50 €

Meet the Wilder Bed, where modern sustainability meets cloud-like comfort. Its plush upholstery is padded with soft poly fibers and features a supportive core foam crafted from innovative, partially plant-based materials. Designed for real life, the frame includes thoughtful details like extra space to accommodate mattress variances and make bedding a breeze. For the ultimate sleep setup, we recommend pairing it with our low-profile Retreat 4" Platform.
