

Tatum Ash Wood Writing Desk with Leather Top

1470.00 €

Handcrafted by Indonesian artisans, the Tatum desk turns solid ash into a workspace you'll actually want to use. A clear lacquer finish lets the grain glow while shielding it from coffee rings and brainstorm scuffs. The inset leather surface invites pen on paper, mouse on pad, or laptop on hide—no slip, no scratch, all style. One piece, zero assembly: just unbox and start creating.
