

# Crank Up Glass & Reclaimed Wood Desk

2257.50 €

Turn the handle and watch this desk rise from 30" to 42"—no motors, just smooth mechanical muscle. A crystal-clear tempered-glass top floats above rugged reclaimed-wood legs, marrying factory grit with gallery gloss. Built to shoulder 250 lb of monitors, models, or midnight manuscripts, the steel crank still glides like butter. Pick the 47" compact or the 59" wide canvas and make standing or sitting your choice, not a chore. Want a metal top instead? Chat us live and we'll forge a custom piece from our recycled steel collection.
