

# Seminyak Console Table

1890.00 €

This collection is crafted from reclaimed teak wood. Each piece will display organic variations in color, texture, and detail including small splits, knots, joint lines, or other features that add one-of-a-kind character.

Inspired by the ancient Japanese art of charring wood, pieces crafted in our hand-applied Shou Sugi Ban finish feature rich black tones, mimicking a scorched, textured appearance.

Pieces crafted in our Natural Waxed finish are enhanced with warm brown tones to achieve a harmonious, natural color.

Each piece features a wax topcoat for added protection and to emphasize the teak wood's natural beauty. Natural teak wood displays organic variations in color, texture, and detail that tell the unique story of each Seminyak.

Hand-applied Shou Sugi Ban finishes feature rich, black tones with added depth—created by carefully charring wood surfaces.

Reclaimed wood may also feature small splits, knots, joint lines, or other features that add one-of-a-kind character.

Artisan-finished surfaces are waxed for added protection and to emphasize the teak wood's natural beauty.
