

Everett Antique Teak Sideboard

1740.00 €

Hand-built from solid teak or rich mahogany, the Everett sideboard feels like a flea-market treasure you actually get to keep. Each panel carries the story of its tree—knots, grain, and all—then gets a hand-painted, waxed patina that looks decades old the moment it arrives.

Dhurrie Brown: teak with distressed, waxed antique finish

Honey: teak sealed in clear, water-based lacquer

Eclipse: mahogany in sleek protective lacquer

No two boards share the same swirl or scar, so your sideboard is one of one. Slide it behind the sofa or let it anchor the dining room—either way, it sparks conversation before the appetizers even hit the table.
