

Sloane Mahogany Nightstand

855.00 €

Meet the Sloane: a compact bedside companion carved from solid mahogany, finished by hand, and polished to a soft, lacquered glow. Petite brass pulls add a flash of quiet luxury. Metal soft-close glides and dovetail beech drawers keep midnight rummaging whisper-quiet. Each piece is one-of-a-kind—natural grain and hand-layered stains mean no two nightstands share the same story. Slide it beside your bed and let the day's clutter disappear in style.
