

# Porto Outdoor Double Chaise

1350.00 €

Choose from a range of available configurations or create your own Porto with a range of pieces to complete your ideal aesthetic.

Frames are craftsman-built from all-weather tube and cast aluminum, featuring precision welds and reinforced stress points.

Porto frames feature a unique combination of no-sag, galvanized-steel sinuous supports as well as an outdoor elastic support system for added resiliency and evenly dispersed, firm-yet-flexible comfort.

Crafted to withstand the elements, Porto's cushions have been engineered for maximum water drainage and air circulation.

Porto's cushions are crafted from an open-cell, quick-dry foam wrapped in high-quality poly fibers made from recycled post-consumer plastics.

Polyester fibers encase foam cushion cores to provide additional comfort.

InsideOut Performance Fabrics® are made from durable polyester and polypropylene fibers, which are bleach-cleanable, fade-resistant, anti-mildew, and eco-friendly.

Protect your outdoor furnishings with resilient Agora® covers—specifically tailored to fit Siena living outdoor collections (sold separately). Call, email, or live chat with our design team to learn more.
