

All Weather Martini Side Table

375.00 €

Pull up a martini—this feather-light side table is sculpted from glass-fiber-reinforced cement that laughs at rain, sun, and spills. A hand-applied color wash and satin topcoat give it the look of weathered stone without the weight. Because each piece is artisan cast, no two tops share the same swirl of shade or hairline “age” marks; what you get is a one-off that gains character outdoors instead of wear. Sized for a single drink, book, or tiny plant, it tucks beside loungers, hammocks, or balcony chairs. No cover? No problem—add a tailored Sur Last® sleeve (ask us) and leave it out year-round. 14 lbs, so a breeze can’t blow it, yet you can still lift it with one finger.
