

Sequoia Floating Leather Sofa

2925.00 €

Meet the Sequoia—where lounge-luxury meets architectural edge. Its solid hardwood frame seems to levitate on hidden legs, while recycled-steel springs keep every seat perfectly buoyant.

Buttery top-grain leather wraps dense, fiber-cushioned seats that invite all-day sinking.
Springy recycled-steel core + elastic webbing = zero sag, forever support.
Floating inset legs give your living room a lighter footprint and serious wow-factor.

Ready to anchor your space without weighing it down.
