

Grady Reclaimed Oak Waterfall Desk

1949.25 €

Own a slice of European history. The Grady desk wraps a sleek waterfall silhouette in centuries-old oak rescued from weathered barn beams, so every saw mark and resin-filled crack tells its own story. Hand-sanded, glazed, and sealed matte, the wood glows with depth that only time can create. Two soft-close drawers float on hidden glides, keeping your workspace calm and cable-free. Available in Northman Oak, Sable, or Cinder finishes. Sustainably sourced solid oak and veneers complete the frame—no two desks ever match, but every one is built to last another hundred years.
