

Artisan Woven Teak End Table

375.00 €

Crafted by hand in Indonesia, our Rockport End Table blends artisanal texture with rugged durability. The Performance Weave polyester rope is meticulously woven around a frame of sustainably harvested, Grade-A teak wood, chosen for its natural strength and beauty. This premium, unfinished teak boasts natural oils that repel moisture, insects, and rot. Its warm golden hue will gracefully weather to a soft silver-gray patina over time, developing a unique character with each knot and grain variation. A stunning, low-maintenance piece built to last through every season.
